### Explore the French *Diplôme d'ingénieur*

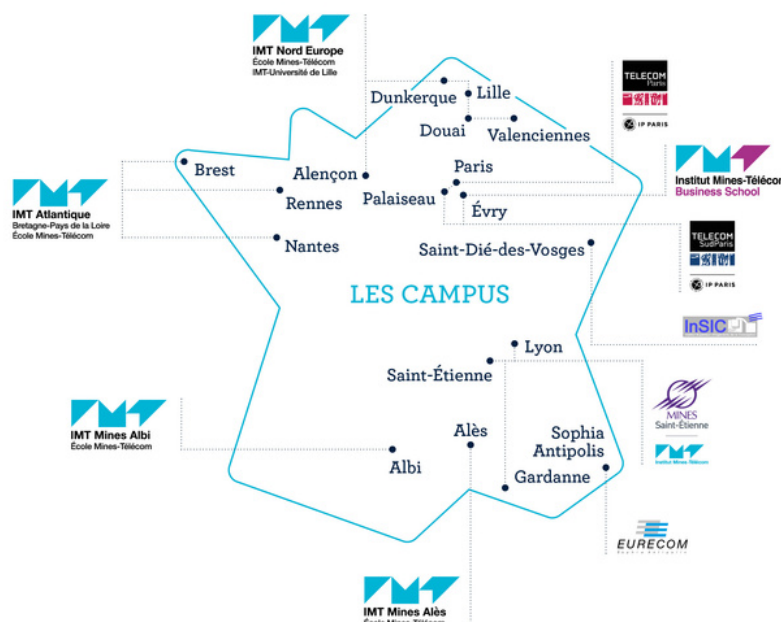

The *Diplôme d'ingénieur*, *Grande École* is a prestigious five-year engineering degree awarded by France's Technological Universities. Recognized as equivalent to a Master's degree (EQF Level 7), it combines academic excellence, hands-on learning, and strong industry connections.

International students typically join the programme in Year 4 to complete the final two years. They choose a specialization and gain extensive professional experience through a long-term internship. Most programmes are taught in French (B1 level required), with some programmes delivered in English [ENG].

8 Technological  
Universities  
+ 2 subsidiaries

A network of partner  
schools in France

Member of EULiST  
European University:  
10 universities,  
10 countries,  
200k students

### Areas of study

- Agro-food Industry
- Applied Mathematics
- Civil Engineering
- Electronics
- Energy
- Environment
- Geo Engineering
- Health
- ICT and Computer Science
- Industrial Engineering
- Materials Science and Engineering
- Mechanics
- Robotics

## Agro-food Industry

IMT Mines Albi Pharmaceutical, agri-food and cosmetics processes →

## Applied Mathematics

IMT Atlantique Industrial systems and Organizations →

Mines Saint-Étienne ICM Data Science →

## Chemistry for health and cosmetics

IMT Mines Albi Pharmaceutical, agri-food and cosmetics processes →

## Civil Engineering

IMT Mines Alès Civil engineering and sustainable buildings →  
Mineral resources and underground works →

IMT Mines Albi Renewable energies, sustainable production and construction →

IMT Nord Europe Civil and environmental engineering →

## Electronics

IMT Atlantique Robotics, Electronics, Automation, Telecommunications, Embedded Systems →

Mines Saint-Étienne ISMIN Bioelectronics →  
Information technology & supply chain →  
Microelectronics →  
Mobility and security →

## Energy

IMT Atlantique Energy, Nuclear, Environment →

IMT Mines Albi Renewable energies, sustainable production and construction →  
Data engineering for information systems and energy systems →

IMT Mines Alès Energy environment and risks →

IMT Nord Europe Energy Engineering →

Mines Saint-Étienne ICM Process and energy engineering →

## Environment

IMT Atlantique Energy, Nuclear, Environment →

IMT Mines Albi Renewable energies, sustainable production and construction →

IMT Mines Alès Energy environment and risks →

IMT Nord Europe Civil and environmental engineering →  
Environmental and industrial risk management →

Mines Saint-Étienne ICM Industrial and territorial environmental engineering →

## Geo Engineering

Mines Alès Mineral resources and underground works →

## Health

IMT Atlantique Health engineering →

IMT Mines Albi Pharmaceutical, agri-food and cosmetics processes →

Mines Saint-Étienne ICM Biomedical and health care engineering →

## ICT and Computer Science

### Application

- ▲ Application deadline: **07 October 2026**  
If you are from one of the following universities (UNAL, UNIANDES, UTP, UPB, La Sabana), please contact your home university to participate in the double degree programme.
- ▲ Otherwise, you may write to [colombia@global.imt.fr](mailto:colombia@global.imt.fr).
- ▲ More information about the application process is available on this [page](#) →
